

國立中山大學應用數學系

統計組期末報告

1:00-1:30 PM

A predictive model for planning emergency events rescue during COVID-19 in Lombardy, Italy

林彥辰、吳俞憲、黃振瑋、張家輔

1:30-2:00 PM

Using the softplus function to construct alternative link functions in generalized linear models and beyond

葉書宏

2:00-2:30 PM

What drives population aging? A cointegration analysis

蕭舜修

2:30-3:00 PM

Generalized linear mixed model with bayesian rank likelihood

曾宇謙
