

國立中山大學應用數學系

學術演講

講者：Prof. Louxin Zhang (National University of Singapore)

講題：Combinatorics of Tree-Child Networks

時間：2024/12/2(Monday) 14:10~15:00

地點：理 SC 4011 教室

茶會：13:45

Abstract

As a generalization of tree structures, tree-child networks represent one of the most widely studied classes of phylogenetic networks. These are rooted, directed acyclic networks where each non-leaf node has a directed path leading to at least one leaf. In this talk, we will explore counting results for this network class and examine its vector representation.
